NOTE: Estimates provided are consistent with the Congressional Budget Office (CBO) updated budget baseline. Additional items contained in the President's budget proposal, relating to employment taxes and user fees, are estimated by CBO.

(1) Estimate shown includes both the decrease in tax liability and the increase in outlays associated with the proposal. The outlay portions of the amounts shown equal \$0.2 billion in FY1991, \$1.8 billion in FY1992, \$2.0 billion in FY1993, \$2.1 billion in FY1994, and \$2.3 billion in FY1995.

(2) Loss of less than \$50 million.

(3) Gain of less than \$50 million.

(4) The Administration proposal has not been fully specified at this time; therefore, an estimate is not yet available.

(5) Estimate is net of income tax offset.

(6) This estimate is presented relative to the Congressional Budget Office (CBO) baseline which assumes extension of the Airport and Airway Trust Fund (AATF) taxes with the trigger in effect. The estimate reflects the effects both of removing the trigger and of increasing the rates of certain of the AATF taxes as proposed in the President's budget.
